## BTECH COMPUTER SCIENCE ENGINEERING 2ND YEAR

I love being part of organizations that bring helpful impact with keen interest in C and C++ and Data Structure and algorithms (DSA) in C++.

## EDUCATION

Vellore Institute of Technology | Bhopal | 8.13 CGPA

Aug 2021 - Aug 2025

- BTech Computer Science Engineering

Maharashtra State Board-12th Science | 91.33%

2021

Maharashtra State Board-10th Standard | 90%

2019

## WORK EXPERIENCE

Social Team Member | DEV CODE Community

Sept 2022 - present

- Handling the social for the community.
- Inviting connections to get connected with our community social accounts.
- Managing & planning the social grids & color palettes we maintain.
- Planning to make our socials active/more engaging.

## PROJECTS

### Meesho Clone

- MEESHO Clone using HTML ,CSS,javascript,react js.
- A Meshoo clone project is a software development project aimed at creating a platform similar to the popular social networking app, Meshoo. The project involves designing and developing a system that allows users to create profiles, post updates, share media, connect with friends, and interact with other users in various ways.

### Machine Learning

- Fake News Prediction.
- As part of a machine learning project, I developed a model to predict the likelihood of a news article being fake or genuine. This involved working with a large dataset of news articles, preprocessing the data to extract features, and then training and fine-tuning the model using various machine learning algorithms.

## SKILLS

- Front End Web Development
- HTML and CSS
- C / C++
- Data structure and algorithms in C++
